## Registration

Log In

[Not Registered Yet? Register Here](#)

To access the Opticalog application, first of all, you have to register and create an account. Firstly, click the link that is seen below the Log In button.

**Sign up**

Username :

Password :

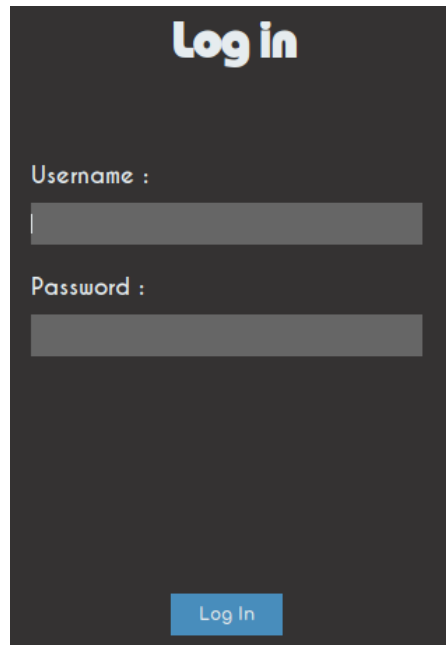

Re-Type Password :

Sign Up

[Already have an account? Log in Here](#)

Then, fill the required fields and press the Sign Up button. The link below the Sign Up button takes you back to the login screen.

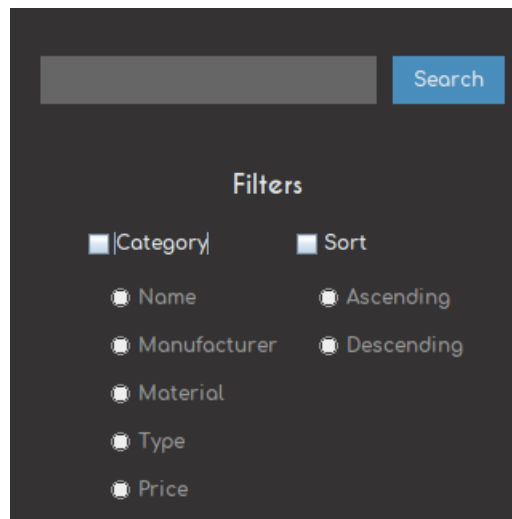

## Logging In:

A dark-themed login form with the title "Log in" at the top. It contains two input fields: "Username :" and "Password :". Below the password field is a blue "Log In" button.

After registering, you can log in to the application with your username and password from the registration process.

## Searching and Sorting:

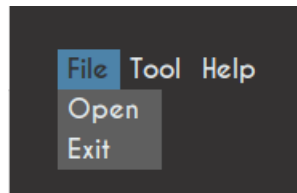

A dark-themed search and filter interface. At the top is a search bar with a blue "Search" button. Below it is a "Filters" section with two columns: "Category" and "Sort". The "Category" column has five radio button options: "Name", "Manufacturer", "Material", "Type", and "Price". The "Sort" column has two radio button options: "Ascending" and "Descending".

After logging in to Opticalog, you can access the database storing information about various spectacle frames. Through the use of the search bar, you can search for a frame with a particular name, manufacturer, type or price.

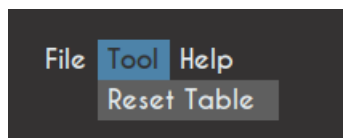

Other than that, data can be sorted in ascending or descending order based on the categories shown above. If you sort the data without choosing a category, the data will be automatically sorted on the basis of name.

## Opening Files:

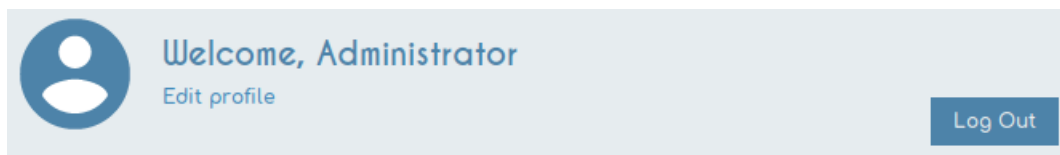

Files with the csv extension (.csv) can be opened through the File menu.

## Resetting the Table:

The tool menu can be used to reset the database table to its original order, resetting the results of any search or sort actions.

## Logging Out:

Lastly, you can log out by clicking the Log Out button near the top right section of the window.
